

JULIO CESAR LOPES

FULL-STACK SOFTWARE ENGINEER

Joinville, Santa Catarina, Brazil | juliolopesbfg@gmail.com | linkedin.com/in/juliobfg

SUMMARY

Full-Stack Software Engineer with 6+ years of experience in cradle-to-grave software development. Expertise in building scalable modern web applications and microservices using React, Node.js, TypeScript, and AWS. Strong background in agile methodologies, owning applications from UI development to cloud infrastructure, and collaborating with cross-functional teams to align technical solutions with business goals.

CORE SKILLS

Frontend & UI	React.js, Next.js, TypeScript, JavaScript, Material UI, Tailwind CSS
Backend & APIs	Node.js, GraphQL, RESTful APIs, Microservices Architecture
Cloud & Infrastructure	AWS (DynamoDB, OpenSearch, SQS, S3, Redshift, CDK), GCP, Cloud-based Architectures
Engineering Practices	Agile Methodologies, CI/CD Pipelines, Test Automation, Cradle-to-Grave Product Ownership

PROFESSIONAL EXPERIENCE

Full Stack Engineer — Korr

Jan 2026 – Present | Remote

- Maintained a multi-tenant AWS claims processing infrastructure (DynamoDB, OpenSearch, SQS, S3, CDK), ensuring high performance for complex workflows.
- Engineered and maintained ETL pipelines, moving legacy data through Redshift into OpenSearch across millions of records.
- Collaborated on a React/Node.js monorepo for a B2B SaaS platform, delivering configurable schemas and API migrations that significantly reduced client onboarding time.

Full Stack Engineer — Clinicorp Solutions

Aug 2025 – Dec 2025 | Brazil

- Architected and delivered an end-to-end tax invoicing system supporting the entire paying user base, demonstrating full cradle-to-grave ownership.
- Provided critical support for application issues, resolving payment incidents on high-value transactions (>10K BRL) to ensure system responsiveness and revenue retention.

Senior Software Engineer, Frontend — Upstart

Nov 2022 – Aug 2025 | Remote

- Participated in extensive cross-functional collaboration to ship features that improved workflows for 100+ employees organization-wide.
- Led the architecture and migration of a legacy platform to a modern Next.js/React solution serving 250,000+ active users with minimal disruption.
- Optimized UI development focusing on SEO and rendering performance, cutting load times and driving user engagement.

Software Engineer, Frontend — Founding Team — Inspira

May 2021 – Nov 2022 | São Paulo, Brazil

- Built a SaaS MVP from scratch using React, GraphQL, and Material UI, driving \$25,000 in revenue within six months.
- Contributed to system architecture and API development, optimizing complex GraphQL search queries.
- Improved system performance and scalability, cutting server response times by over 40%.

Frontend Developer — Coderockr

May 2020 – Apr 2021 | Joinville, Brazil

- Delivered continuous support, fixes, and improvements for a SaaS mobile application (React Native, Node.js) managing 50,000+ daily active vehicles.

EDUCATION

- Postgraduate Degree, Artificial Intelligence — UNINTER (2024).
- Bachelor's Degree, Information Systems — UNISOCIESC (2017-2022).
